ASSIGNEE

Supplemental Sheet

At least one error upon which reissue is based is described as follows:

Applicants inadvertently included the feature of “forming the metal element diffusion film comprising a semiconductor in contact with the silicon nitride film” (*emphasis added*) in the claims of the original patent. This feature is unnecessary for patentability and narrows the claims below a scope which the inventors had a right to claim in the patent. This feature has been changed to recite “forming a metal element diffusion film comprising a semiconductor over the crystallized semiconductor film” (*emphasis added*) in the claims of this reissue application.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.
